Regarding Wireless LAN security

In order for you to access Internet quickly and conveniently, this service does not use security measure such as WEP key, which one usually needs to configure for client terminals when connecting to a wireless LAN router,. For those who prefer secure connection, we recommend using VPN (Virtual Private Network) or the paid public hotspots services.

If you understand the nature of this service as described above, please click "I agreed" to use this service on your own risk prior to use. You must agree to this statement to use this service.

In addition, in the interest of protecting children, access may be restricted to certain websites deemed harmful to minors by this company.

Important Notes

●This service is operated by NTT Broadband Platform, Inc (NTTBP).

●This service is provided on a best-effort basis. Therefore, connection speeds and quality cannot be guaranteed.

●Please understand that no WEP key or other encryption is set. Security is the responsibility of the user.

●After registering user information, the user is automatically logged into the internet. Connection is provided for 30 minutes. After 30 minutes have passed, the user will be required to log in again from the security notice page.
 * Registration is not required after the second login.

●VPN and some other services may not be accessible due to the design of the network.

●No devices or software used by customers of this service are supported by NTTBP. Please contact the device or software manufacturer for support.

●Please be aware that NTTBP shall assume no responsibility whatsoever in the event of any personal damage to the user or dispute with a third party resulting from use of this service.

●Service may be temporarily unavailable due to equipment maintenance or other reasons.
