

Tokyo Big Sight's web site became Quatro-Lingual !

~ Chinese and Korean added ~

Opened in February <http://www.bigsight.jp/>

Inside Tokyo Big Sight, there are information maps in 4 languages (Japanese, English, Chinese, and Korean) and they are unified with the brochures. In recent years, we have had many visitors from Asia, and the need for the fulfillment of the website has increased. Therefore, we launched Chinese and Korean site for the improvement of service for visitors from overseas. It is possible to check such contents as access map and facilities in Chinese and Korean characters.

For event promoters and exhibitors, please use it to guide your visitors.

(*part of the event schedule and the company profile are in English)
