

1. Analog lines

a. Fees for line construction and service

Analog line (direct line) with telephone or modular jack (for connection to a fax machine, PC, or other terminal device)
(For usage fees, please refer to the unit prices listed on the separate Application Form.)

If you wish to use number display service offered by Telecommunications carrier (e.g. NTT) , please indicate this fact on your application form.

b. Communications and calling fees

i. Communications and calling fees are charged for each analog line.
(For usage fees, please refer to the unit prices listed on the separate Application Form.)

An additional service fee will be charged when number display service are used.

ii. Extra fee

When you use the following services, an additional service fee may be CHARGED SEPARATELY. (within 120 days from the date of usage)

NTT Communications: Universal Service System etc. (Starting numbers which begin with the followings)

_ 0035 Business Mode

_ 0570 Navi Dial

_ 0180 TELE-DOME

*The device in use may connect automatically. If you wish to check the setting of your device, please contact the maker or the distributor of your device. In some cases, some services may NOT be available. Please consult with the person in charge of Tokyo Big Sight beforehand.

c. Analog lines in exhibition hall rooms and meeting rooms

With the exception of the organizer's office, permanent telephones in exhibition hall rooms (negotiation rooms, etc.) and meeting rooms are provided with restrictions placed on outgoing calls. They therefore cannot be used to make outside calls (however, calls can be made within Tokyo Big Sight).

You may apply to have the restrictions on outgoing calls lifted or to have a dial—in number added. In such cases, outgoing calls can **be made after dialing "0" before the telephone number.**

(For usage fees, please refer to the unit prices listed on the separate Application Form.)

However, permanent telephone lines cannot be attached to fax machines or PCs. If you wish to use such devices, please apply for a separate analog line (direct line).

d. Items to bear in mind when using analog lines

i. Fax machines are to be provided by the user.

ii. Connection of fax machines and connection/installation of PCs is entirely the responsibility of the user.
Please be aware that a fee will be charged for any support provided by Tokyo Big Sight.

iii. When making international calls, please use the number of your communications provider.
